

Xtensible Solutions is looking for experienced, professional candidates for a **Senior Project Manager** position. The qualified candidate will be the primary organizer across departments and technical implementations. You will work directly with managers to coordinate resource allocation across all departments as well as instilling a consistent and efficient development process and you must be willing to travel.

Ideally we are looking for candidates located in CO, Northern VA, Eastern MA or Tempe, AZ and close to a major hub but we will also consider other locations. We offer excellent salaries, medical, dental, vision, 401K and much more. Please visit us at www.xtensible.net.

Responsibilities

Experience in the following areas will be critical success factors for the successful candidate:

- Oversees management and control of project scope
- Oversees the management of project staffing and works closely with organizations supplying resources to ensure adequate staffing during project lifecycle
- Prepares project execution documentation
- Independently plans, organizes and controls the activities of multiple, large-scale, cross-functional project teams
- Manages relationships with other client organizations, external vendors, and standard bodies
- Oversees the management of an end-to-end project budget, tracking, reporting, delivery
- Persuades and influences colleagues at all levels of the organization
- Analyzes effects of new project scope upon project resources to determine the most practical and cost-efficient methods to obtain the required resources.
- Ensures that required process discipline is maintained and that all process gates are achieved for each project.
- Formulates and recommends corrective action measures such as schedule revisions, manpower adjustments and work requirements.
- Participates in planning/project review meetings as necessary, ensuring all required support has been identified.
- Partakes in the technical strategy evolution, architecture, and design. Communicates results both internally and externally

The ideal successful applicant will also possess the following qualifications:

- Proven track record utilizing multiple integration and software development methodologies ranging from traditional waterfall to more agile techniques. Recognized thought leader on project management best practices
- At least 5-10 years of Project and/or Program management in addition to at least 3 years as a software developer or integration architect/analyst
- Bachelor's degree in engineering or related analytical field. Masters degree is a plus.
- Professional project management certification (e.g. PMP) required
- Team experience with highly integrated development projects
- Demonstrated verbal, writing, and presentation skills
- Client or "customer-oriented" experience
- 2+ years experience in the utility or communications industry desired

Xtensible Solutions is an Equal Opportunity Employer. All applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

If you have what it takes to contribute to this winning team, contact us at pscared@xtensible.net. We look forward to meeting you!
